

Your Personal AI Assistant Everywhere...

Bringing The Power Of AI To Non-Technical People and Power Users Alike!

Seed Round - July 2026 | BB23 LLC

LinkBox AI

The Agentic Personal Assistant Platform

**An AI Assistant that learns your life,
runs your workflows, and gives you
one natural interface across
everything you do.**

Voice Agent

HoloTube

Agents

Memory

Actions

Your Digital Life is Fragmented.

Current AI assistants just answer questions. They don't do things.

47+

apps to manage an average life.

23 mins

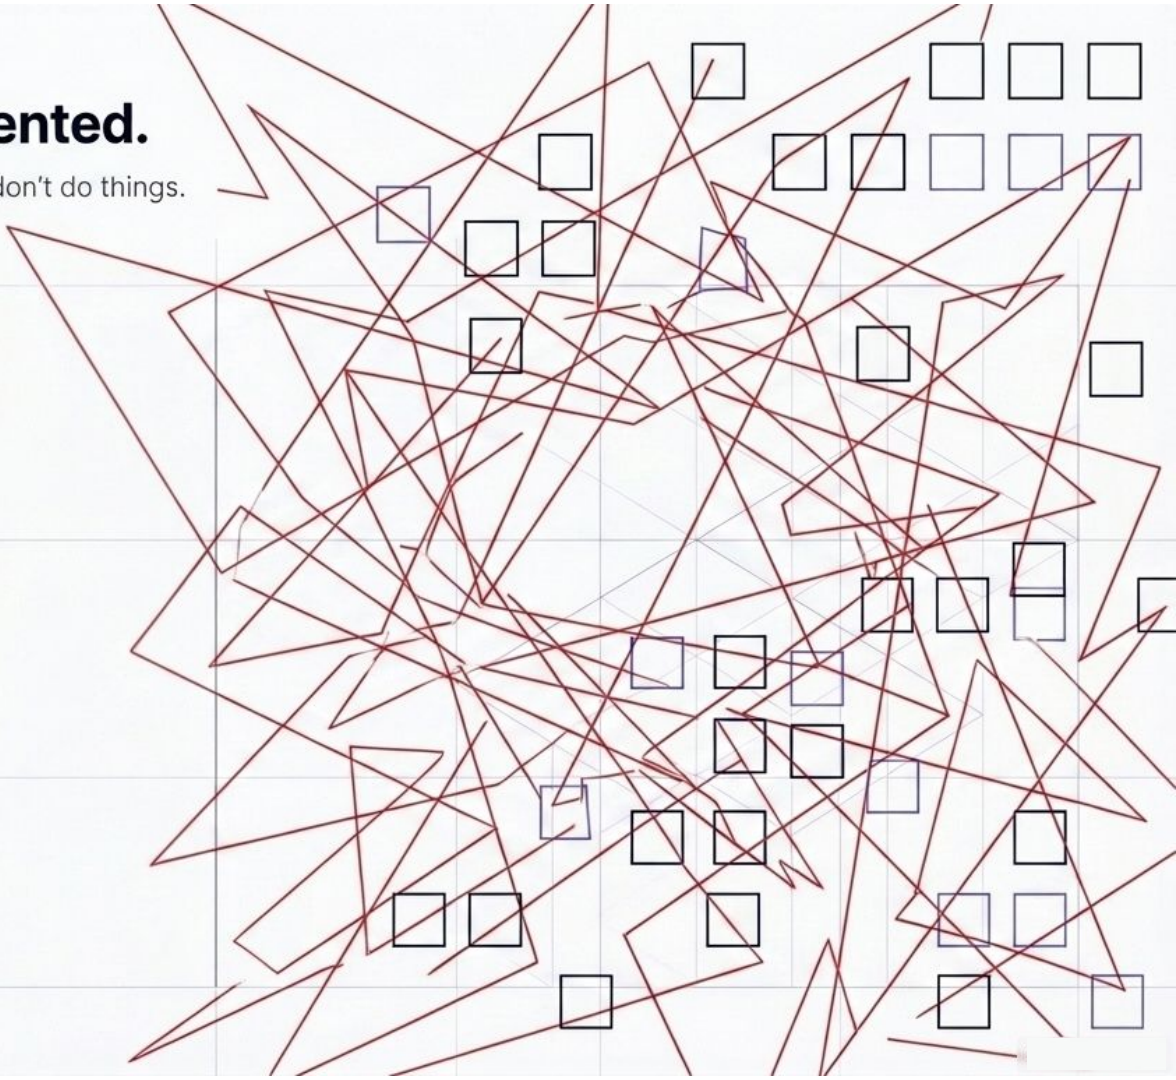

lost per context switch.

\$2,400/yr

trapped in redundant subscriptions.

50+

companies hoarding your siloed data.

THE PROBLEM

AI answers questions. Linkbox Holo Assistant runs your life.

Session-based only

ChatGPT, Claude, and Gemini forget you the moment you close the tab.

Life is fragmented

Calendar, email, health, finance, home — all siloed. You are the integration layer.

No cross-domain context

AI can't connect your goals, your meetings, your health, and your budget into one system.

Passive, not active

Chatbots answer when asked. They never anticipate, plan, or execute on your behalf.

The modern person manages 15+ apps daily. The user is the integration layer. That needs to change.

Understand

Act

Cross-app execution, not just passive suggestions.

MARKET TIMING

AI is ready. Users are overwhelmed. Interfaces are changing.

01

Large Models

Reasoning at scale is now accessible and affordable for consumer products.

02

Voice is Natural

Sub-200ms latency makes voice interaction feel like talking to a real person.

03

Agents Execute

LLM agent frameworks can now take actions — not just generate text.

04

Data Layer Exists

Smart home, finance, health, and messaging APIs are mature and connectable.

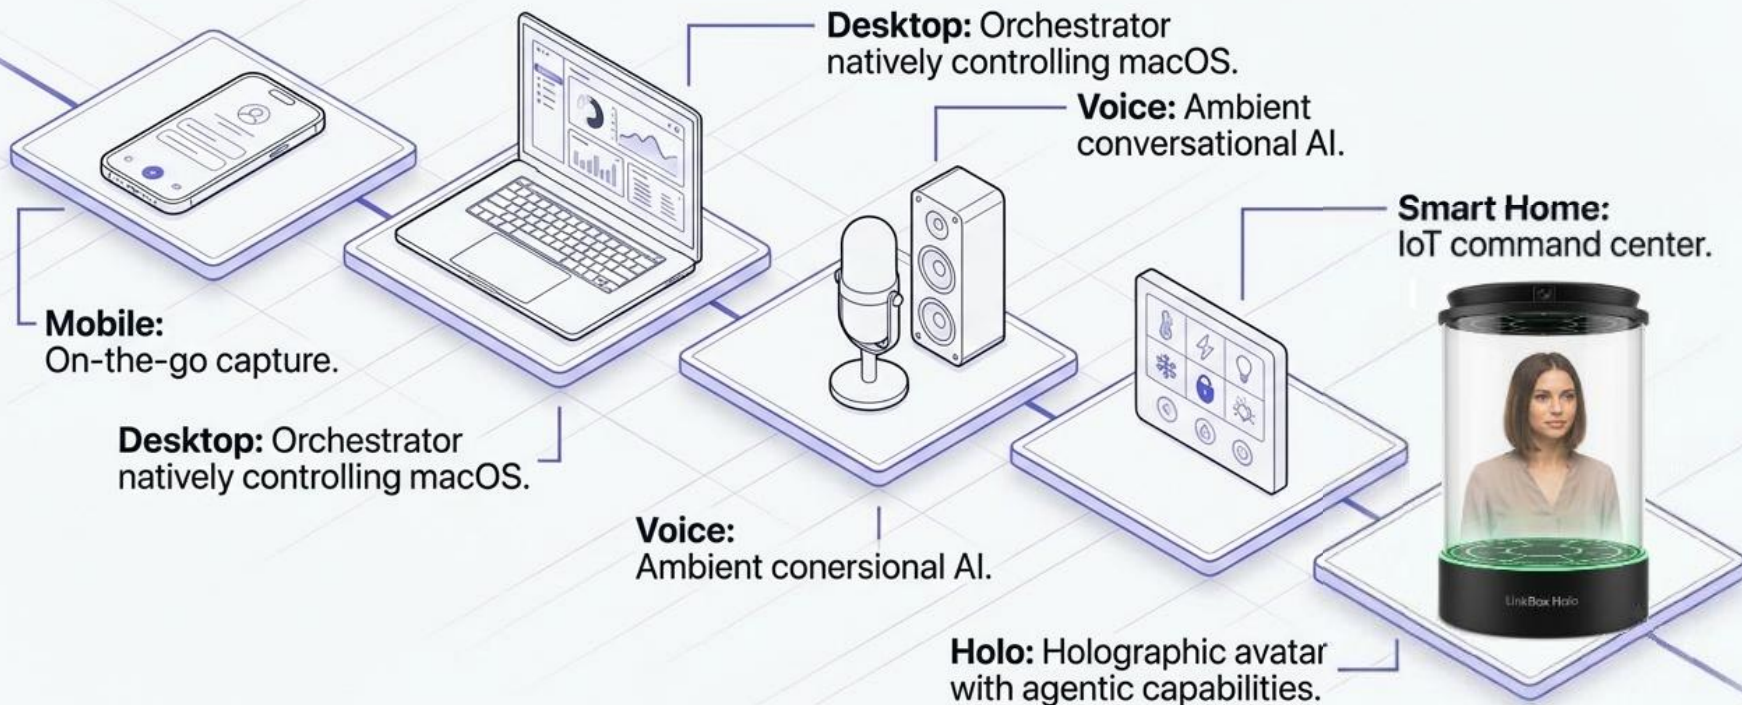

05

Spatial is Emerging

HoloTube and Assistant interfaces give AI a physical presence in the user's world.

The winning assistant will not be the smartest chatbot. It will have the deepest user context and the most useful action surface.

A Unified Experience Across Every Modality.

THE SHIFT

The next AI platform is not a chatbot. It is an agentic life layer. A Personal Assistant

Ask & Answer

Today's chatbots

- × Stateless — forgets you
- × Session-based only
- × You must explain context
- × Limited action surface
- × Single-domain focus

Learn, Plan, Act

LinkBox AI

- ✓ Persistent — knows you deeply
- ✓ Learns across all life domains
- ✓ Anticipates before you ask
- ✓ Executes through connected agents
- ✓ Voice, HoloTube, and spatial presence

Proprietary Tech: Real-Time Local Execution.

We bypass stateless cloud wrappers with native OS integration.

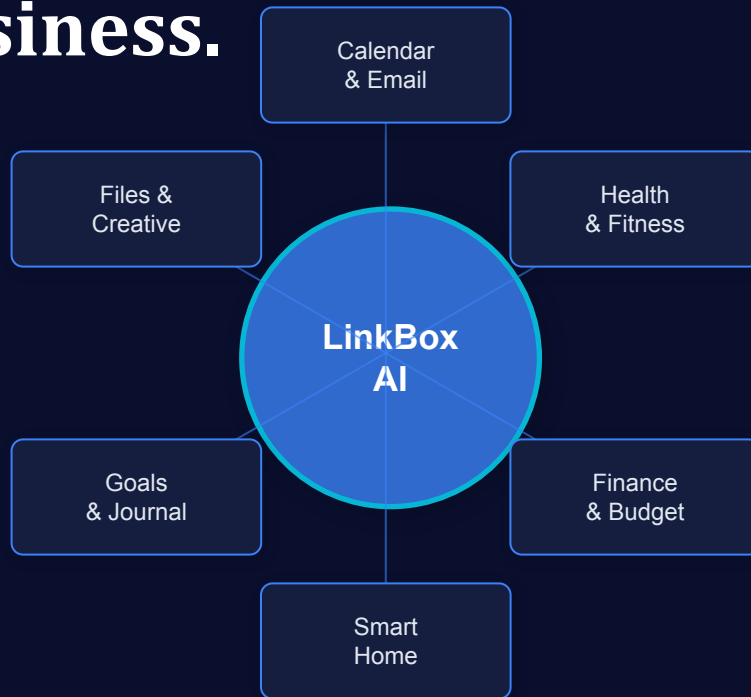

Privacy-First & HIPAA Compliant

Secure AI that operates locally, catering to prosumers, developers, and healthcare without sending context to the cloud.

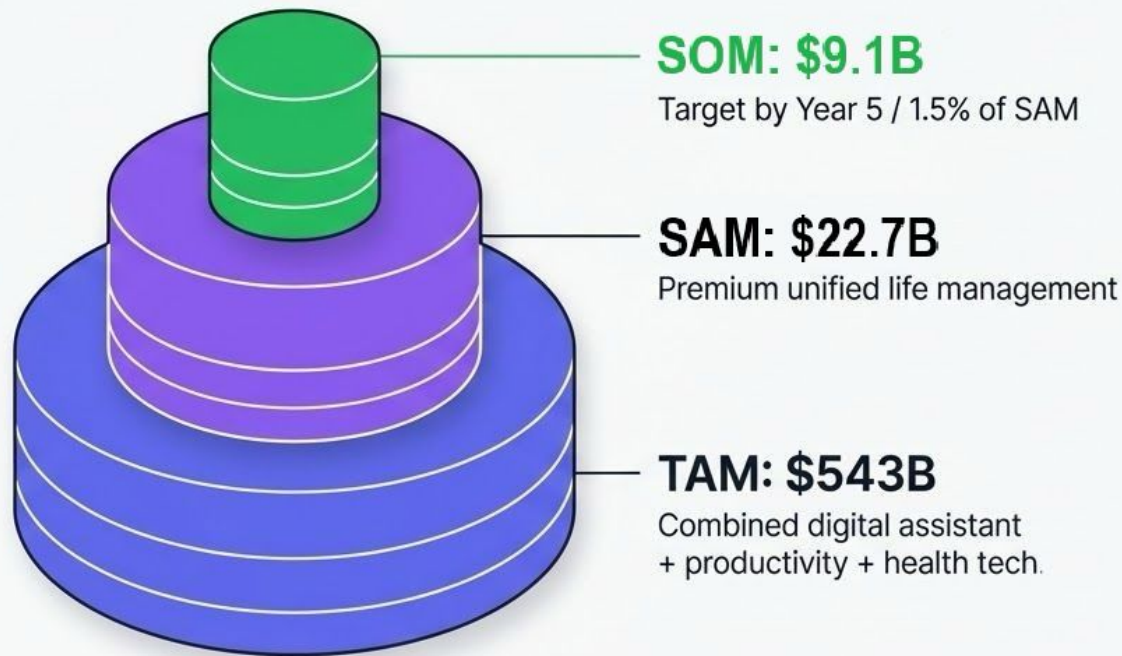

THE SOLUTION

One agentic command center for life and business.

A \$32B Premium SAM, Expanding Daily.

The High-Value Orchestrator

- Tech-forward professionals (28-45)
- Income \$100K+
- Privacy-conscious
- Multi-device households

PRODUCT EXPERIENCE

Just say what you need.

● Productivity

"Plan my day around my energy, meetings, and goals."

● Health

"Build a meal plan around my health goals."

● Communication

"Summarize my inbox and draft replies."

● Intelligence

"Prep me for my 2pm meeting and pull relevant notes."

● Finance

"Check my budget, mileage, receipts, and upcoming bills."

● Home & Life

"Control the house, check my Tesla, remind the family."

LinkBoxAI is not a tab. It is an assistant.

WHY LINKBOXAI IS DIFFERENT

Chatbots are stateless. LinkBox AI is persistent.

ChatGPT / Claude / Gemini

LinkBoxAI

Memory

✗ Session only

✓ Persistent across all domains

Context

✗ Repeat yourself every time

✓ Learns your patterns over time

Action

✗ Mostly answers questions

✓ Executes workflows through agents

Life Graph

✗ No cross-domain awareness

✓ Connects goals, health, finance, calendar

Interface

✗ Chat box

✓ Voice · HoloTube · Spatial presence

Compounds

✗ Same capability every session

✓ More useful every single day

Fully Shipped. Ready to Scale.

YOU ARE
HERE

July

August

September

December

The Foundation

- ✓ Voice AI, Desktop orchestrators, VisionOS

De-risked

- ✓ iOS launch, Android beta

Current Momentum

- ✓ 6 native platform apps live.
- ✓ 47 edge functions in production.
- ✓ 69 affiliate partners.
- ✓ HIPAA-compliant architecture.
- ✓ Zero-dependency desktop binaries.
- ✓ LinkBox Holo Alpha.

The Upside

Link Assistant hardware & Holographic Avatar public release.

DEFENSIBILITY

The moat is personalization, integration depth, and daily dependency.

● User Memory

Private behavior patterns that compound daily — impossible to replicate without years of data.

● Cross-Domain Context Graph

The unique graph of a user's goals, health, finance, and life — no competitor can import this.

● Agent Workflow Library

Automations built around a specific user's life become deeply sticky and personalized.

● Voice-First Habits

Interaction habits form around the assistant. Switching cost grows with every conversation.

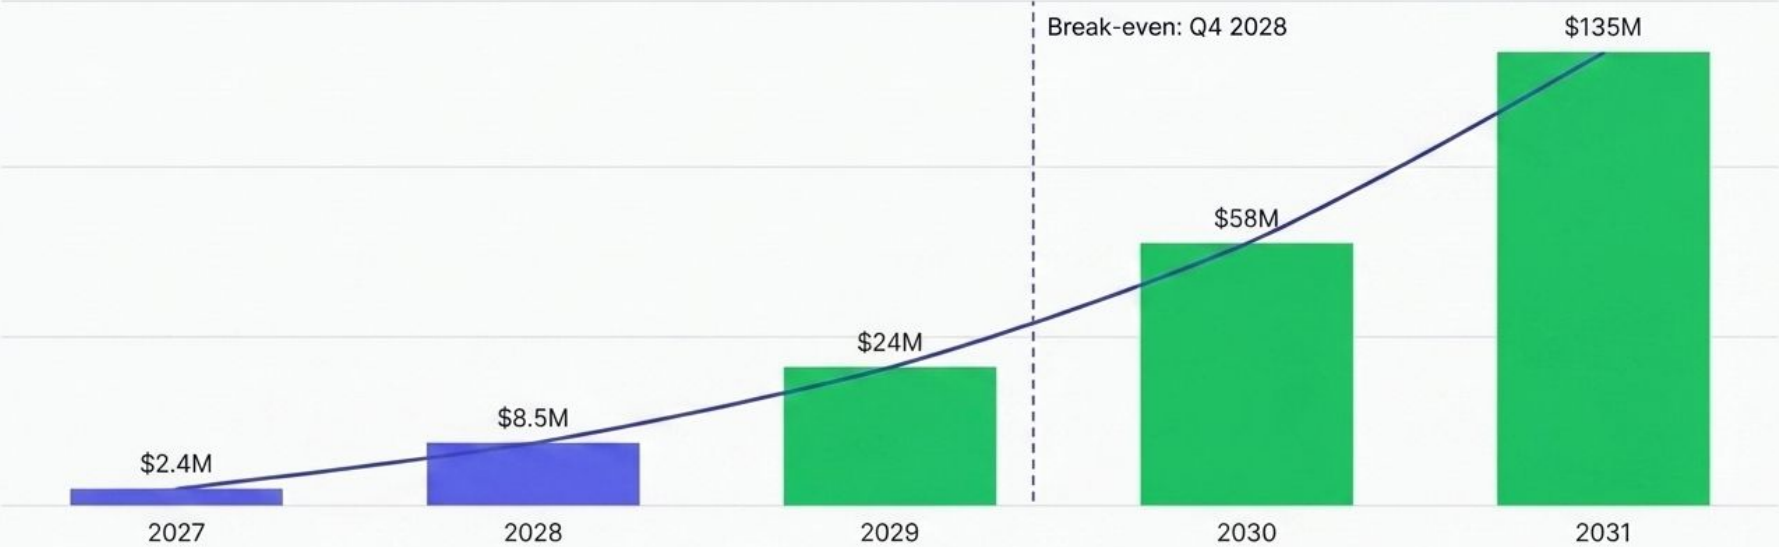

● HoloTube Personal Assistant Presence

A spatial, embodied AI persona creates emotional attachment and daily engagement.

● Multi-Platform Footprint

iOS, Android, Web, Mac, Windows, hardware, and smart home integration build lock-in at the OS level.

Profitable by Q4 2028.

2027	2028	2029	2030	2031
\$2.4M	\$8.5M	\$24M	\$58M	\$135M
(344% YoY)	(254% YoY)	(182% YoY)	(142% YoY)	(135% YoY)

Sustained Gross Margin: 78%

BUSINESS MODEL

Subscription platform with expansion paths.

Free

\$0

500 entries, basic voice search, core RAG chat

MOST POPULAR

Pro

\$9.99/mo

Unlimited entries, advanced agents, smart home, knowledge graphs

Pro Holo

\$29/mo

AR/holographic 3D graphs, LinkBox hardware sync, spatial overlays

Team

\$39/mo

5 seats, SSO, admin dashboard, audit logs, dedicated support

Expansion Paths:

Household coordination · Small business ops · Healthcare-adjacent coaching · Financial organization · Executive assistant workflows

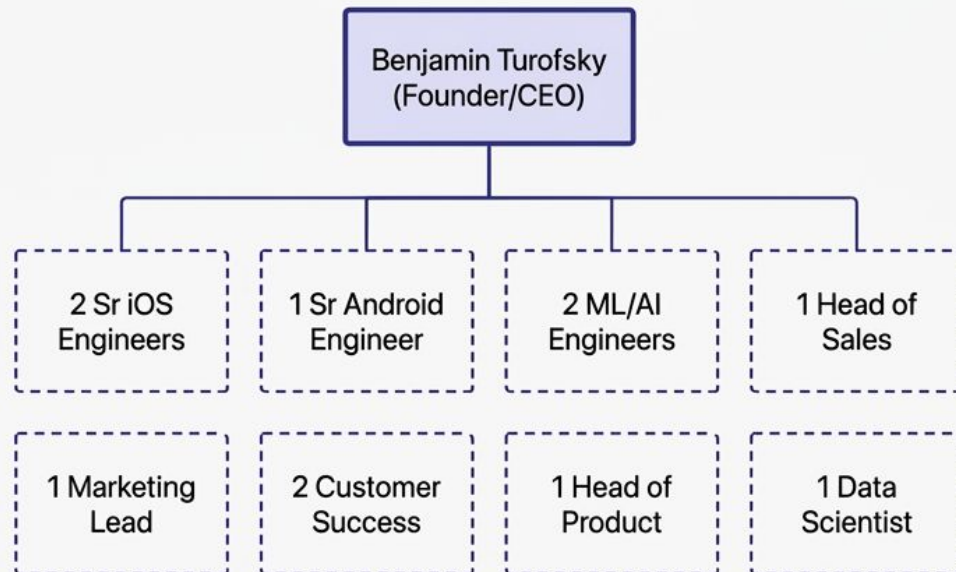

The Builder & The Growth Plan.

Benjamin Turofsky (Founder/CEO)

- 30+ years full-stack engineering
- Built entire complex platform to production solo.

The Hires (Post-Funding)

THE ASK

Building the personal AI operating layer.

We are raising to accelerate:

- Voice Agent & Visual Assistant experience
- Agent automation framework
- Native app polish & performance
- Workspace & platform integrations
- Security, compliance & HIPAA expansion
- Growth, partnerships & user acquisition

LinkBoxAI's mission:

*Give every person an AI assistant that knows them,
helps them, and can actually do the work.*

LinkBox AI

Hardware as a Defensible End-State.

- Moves platform from software orchestration to owning the physical-digital interaction layer.
- Establishes ultimate platform moat for 2027 and beyond.
- Proprietary ambient spatial processing.

Zero-Dependency, Military-Grade Privacy.

How do you compete with Big Tech? We don't send customer data to the cloud.

- Achieves true HIPAA compliance through local execution.
- Zero reliance on external API rate limits or privacy compromises.
